Information Center of Technical barriers in trade/ Sanitary and phytosanitary measures with the Committee of Technical Regulation and Metrology, Ministry of Industry and Trade of the Republic of Kazakhstan (KAZMEMST) informs that the Committee's public inspection in the agro-industrial complex of the Ministry of Agriculture of Kazakhstan introduced the restrictions on importation into the Republic of Kazakhstan, as well as the transit on its territory of all types of country-controlled veterinary care control facilities.

The reason for adopting the above measures are the reports published by the International Epizootic Bureau that on the territory of the Kyrgyz Republic (Chui region) and China are hotbeds of very contagious outbreaks of infectious animal's disease - foot-and-mouth disease (FMD).

In this regard, asking to promptly provide information regarding performed arrangements for preventing the smuggling of alive animals, raw materials and animal products from disadvantaged countries, in order to prevent the appearance of this disease on the territory of the Republic of Kazakhstan.

Yours sincerely,

Mr. T. Momyshev

**Vice Chairman of the Committee of Technical Regulation and Metrology,
Ministry of Industry and Trade of the Republic of Kazakhstan**
