

Dear Mr. Tucu,

First of all we would like to thank you for the kind invitation to be present at the celebration day of ASRO.

It would be both an honour and a pleasure for a representative from the *Latvian Standard* to share the notable date together with the staff of the Romanian Standards Association. Unfortunately, due to previously made arrangements it is not possible to share the festive day with you.

On behalf of the national standardization body of Latvia we send ASRO our best wishes and congratulate you on the 10th anniversary of your organization and 80th anniversary of Romanian standardization. We wish you further growth and success in all your doings and plans, carrying out the standardization policy of your country and actively participating in European and international standardization.

V.Zvejs
Chairman of the Board

J.Strīpnieks
Executive Director

Riga, December 2, 2008
